

Join Us for a Short-Term Mission Trip!

Are you a U.S. cadet or midshipman looking for a Spring or Summer Break opportunity that is exciting, educational, and will help your spiritual life and military career?

ACCTS' Exploration Program (AEP) will introduce you and other Christian cadets and midshipmen to international military ministry to help you:

- see your military career as a calling from God
- develop a vision for ministering to international military personnel

- meet military personnel, both Christian and non-Christian, in other countries
- Grow in your understanding of other countries' culture and values.

AEP programs are open to cadets and midshipmen from U.S. military academies, ROTC units, and other institutions, who want to expand their vision of how God can use them as Christian military leaders. These trips are usually held during Spring and Summer Breaks of each service academy and are coordinated with Christian groups at those academies.

During a typical trip, four (or fewer) cadets and midshipmen, with a team leader(s), travel to a country to visit that nation's military academy, engage with international military personnel,

meet members of the indigenous military Christian fellowship, and visit points of interest that will enhance your appreciation for the history, institutions, and people of that country.

This may include visits to cultural sites, battlefields, museums, outdoor activities, and shopping.

How do I apply?

You can learn more information about these programs by contacting us at www.accts.org or at 1-800-487-8108.
