

Prayers during the COVID-19 pandemic

- Father, be with all your children in the military, especially those who are helping their nations in the fight against COVID-19. Please keep them healthy, safe, and at peace as they serve their nations and You. Be with their families and keep them safe and healthy as well. Help those who are leading their nations' military Christian fellowships. We ask that you give them wisdom in knowing how to safely minister to MCF members while keeping themselves and others safe and healthy.
- Be with all those in the medical field who are helping in the fight against the virus. Help doctors, nurses, paramedics, researchers, and all medical professionals who work among the sick. Give them courage and peace as they put themselves at risk in the process of caring for others. Please keep them healthy and strong.
- Be with all those who care for the sick and dying. Strengthen them in body, mind, and spirit. Help them to know today and every day that they matter and are appreciated, especially in these difficult times.
- And Father, especially be with all who are sick. Give them comfort, faith, peace, and healing. Be with their families and help them stay healthy.
- Bring healing to our world, Lord Jesus, and help us to follow You and seek Your wisdom at this tumultuous time. We ask this in Jesus' precious name, amen.
